

using our new (USSD) ***888# menu**

Incase you didn't know, Bluesky has changed our **USSD Menu** from calling the old ***101#** to now calling ***888#**

Customers who use the old ***101#** will be redirected to use ***888#** which is jam packed with some neat new features.

soo..... what's new in the ***888# menu**

Well nothing much has changed but we have added some sweet new features to the menu...

VIEW BALANCE - PREPAID*

Now you can view your prepaid account balances, active data bundles, data usage and expiry dates. So now there's no need to text DATACHK to 901. No need to text USAGE to 901.

VIEW BALANCE - POSTPAID

You can now view your postpaid account balances, active data bundles, current usage and expiry dates now there is no need to text USAGE to 901.

CREDIT TRANSFER*

The credit transfer system is still available and works by sharing your available credit to another person's mobile. Just input the destination number and credit amount you wish to send and its done. Then you will get a text confirmation of the transfer.

BUY BUNDLES*

Now you can purchase your data bundles from the USSD menu. Just select the data that you want. So texting 901 is now out of the window.

I OWE YOU*

This has been a long awaited feature and you can now borrow credit. If your balance is less than \$1 - you can use the IOU function and borrow \$3. Please note this amount plus 0.30c surcharge will be deducted from your standard credit balance the next time you topup (\$3.30c in total). IOU can only be re-paid with purchased credit - not transferred credit or promotion credit.

Once you have paid back your IOU - you can get another one as long as your balance is less than \$1. This means you can't have more than one IOU at a time, you must pay it back (through topup) before you can use the IOU service again.

CALL ME BACK*

This feature allows you to get people to call you back - especially if you don't have any credit to make a call. Just input the number and a text message will be sent to that number notifying them to call you back.

OTHER*

Here you can find "**My Info**" - which gives you info about your phone number and your IMSI number. You will also find the "**Toggle Pay-As-you-Go**" - this is a great feature, if you don't want to waste your credit. For e.g: if you run out of your data bundle - disabling this feature will disable the use of your available credit.

*Menu items can only be seen by pre-paid customers only
